

**Joseph Bologne, Chevalier de Saint-Georges: Sonata No. 2 in A major
for harpsichord or fortepiano with obbligato violin accompaniment
Op. 1a No. 2**

ed. Benjamin Shute & Anastasia Abu Bakar, June 2020

Background

Joseph Bologne, Chevalier de Saint-Georges (1745-1799) is widely regarded as the first composer of African heritage in the European classical tradition. An astonishingly accomplished man, he was music director to Marie Antoinette, an influential composer, an acclaimed violinist, a champion fencer, the first colonel of color in the French army, and an abolitionist activist. This sonata is the second of three presumed to be written around 1770 and published without date by LeDuc in 1781.

Note on the edition

There is one source for these sonatas, the LeDuc edition of 1781, consisting of a full score and separate violin part that almost exactly reproduces the violin line of the full score. The edition contains multiple typographical errors that render it less than ideal for performance. The present edition notes these errors and corrects them, also offering simple suggestions for bowing, articulation, and ornamentation where their omission would be unidiomatic. These should be taken as only the bare minimum, and performers should be encouraged to add more historically informed ornamentation and bowing variations, especially in repeated material or in certain series of long notes.

This edition uses as its foundation the 2014 typeset by Tim Willis (Creative Commons 4.0). The editorial changes described above have been made to the 2014 typeset using a PDF editor.

In all subsequent notes, “FE” refers to the first edition (LeDuc, 1781).

Editorial policy

Dotted slurs are used when no slurs are present in the FE but a) are present in corresponding passages, or b) specifically to the violin, style and/or context suggest separate bowing was likely not intended.

Ornaments not present in the FE but whose inclusion seems especially idiomatic are supplied in brackets.

Grace notes after bracketed trills are all editorial suggestions informed by performance practice but not present in the FE. Lack of editorially supplied grace notes does not necessarily indicate that their presence would be unidiomatic.

Bracketed basso continuo figures are editorial additions in places where the keyboard right hand could idiomatically assume a continuo function

Notation of accidentals has been modernized.

Accidentals notated above their respective pitches are not present in the FE but possibly intended, though not beyond question.

Modern repeat signs are not present in the FE. Places where repeats would conventionally be taken are indicated by double bars. However, not every section bounded by double bars represents a workable repeat. The editors have inserted repeat signs where deemed appropriate.
